

2016 - 2017 Historian Report

The primary responsibility of the LMGC Historian is to collect and file any significant written materials and/or photos relating to events and activities of the Lake Minnetonka Garden Club throughout the year. These items are kept in our files in the offices of the Wayzata Historical Society in the lower level of the Hennepin County Library Wayzata Branch.

In exchange for being allowed to keep our files in this space, LMGC members volunteer to work with the Wayzata Historical Society personnel one day each month to help them with filing and other tasks. The LMGC Historian solicits these volunteers from the Membership and coordinates with the Historical Society by providing them with a list of the volunteers for each date, along with their contact information.

This year we collected printed materials and other memorabilia from the 2016 GCA Annual Meeting, which LMGC co-hosted with the St. Paul Garden Club. These materials were submitted to us by Betsy Massie and are now in a notebook in the LMGC History files.

Respectfully Submitted,
Mary Upjohn
