

Photography 2017-18

Blooming Exposures met eight times this year. We settled on a regular meeting time of 2:30 p.m. on the second Monday of the month. We spent most of our meeting time reviewing and critiquing members' images. We also kept the group informed about GCA photography shows and shared our experiences in entering competitions, whether successful or not. We learned a great deal from sharing judges comments on our entries.

We would be delighted to have more members join us at our meetings.

Respectfully submitted,

Alison C. Humphrey
